Village Council Meeting

The Regular monthly meeting of the Village Council was held in the Secretary's office on Monday, May 7th, at 8 p.m. The following officers were elected:

Supt., Mrs. H. F. Oldring, Asst. Supt., Mrs. J. F. Flewwelling; Secretary, David Whiting; Treasurer, Mrs. McLellan, Sup't. of Supplies, Mrs. Hyslop, Cradle Roll Supt., Mrs. Flewwelling; Missionary Supt., Mrs. J. W. Spences, Organist, Miss Agnes Whiting.

Moved by McDonald, seconded by Flewwelling that the Secretary be empowered to negotiate with Bruce Robertson Distributors Ltd., with a view to returning electric wire and equipment bought by the Village last year, and to accept if necessary a ten per cent discount on same. Carried.

Moved by McDonald seconded by Whiting, that R. M. Herniman be placed in charge of all street work and that wages be follows: \$8.00 per day to overseer team; \$3.50 per hr. for Herniman and his engine; 60c per hour for grader man; 80c per hour for man and 4 horses; 16c per hour for single man.

A. L. Smith arrived in town last week, from New Zealand, and is taking charge of the Crown Lumber Co.'s yard. Mr. Finch having relinquished his position last week.

To the Proprietary Electors of the Village of Mirror.

Notice is hereby given that the Council of the Village of Mirror intends to pass a bylaw, which bylaw has been approved by the Board of Public Utility Commissioners, authorizing the Mayor and Secretary-Treasurer to sign and execute on behalf of the Village, a certain franchise agreement with the Calgary Power Company, Limited, for the exclusive supply of electric light and power to the said Village and its inhabitants for a period of 10 years, on the terms set out in the said agreement which is annexed to the said bylaw and described as Schedule 'A' thereto.

AND NOTICE IS FURTHER GIVEN that unless a poll of progressive electors of the Village, for and against the bylaw, is taken within fifteen days from the date of the first publication of this notice, namely May 10th, 1928, the said council will proceed to give effect to the said bylaw by executing the said franchise agreement.

A copy of the said bylaw and franchise agreement may be inspected by any ratepayer at the office of the Secretary-Treasurer of the Village between the hours of 9 a.m. and 12 noon, and 2 p.m. and 5 p.m. of each week day (statutory holidays excepted) within 15 days of the 10th day of May, 1928.

DATED this 8th day of May, A.D. 1928.

Fred McDonald,
Mayor.

J. G. Russel,
Secretary-Treasurer.

Sunday School Meeting

A meeting of the United Church Sunday School was held Wednesday last. The following officers were elected:

Supt., Mrs. H. F. Oldring,

Asst. Supt., Mrs. J. F. Flewwelling;

Secretary, David Whiting;

Treasurer, Mrs. McLellan,

Sup't. of Supplies, Mrs. Hyslop,

Cradle Roll Supt., Mrs. Flewwelling;

Missionary Supt., Mrs. J. W. Spences, Organist, Miss Agnes Whiting.

BRIDGE PARTY

A very delightful bridge party, with Mrs. L. D. Norton and Mrs. C. I. Cabana as joint hostesses was held at the home of the former, Friday last.

The guests included Mrs. Williams, Mrs. Stirling, Mrs. Walker, Mrs. Thomas, Mrs. McCormick, Mrs. McNair, Mrs. L. L. Ray and guest, Mrs. Mitchell of Edmonton, Mrs. Kerr, Mrs. Smathers and Mrs. Aylsworth.

Three tables were in play, the winners going to Mrs. L. Ray, Mrs. Smathers and Mrs. Walker. A delicious midnight lunch was served to the accompaniment of radio selections.

Local Brevities

Mr. and Mrs. James Fraser and family report an excellent trip to Calgary by automobile. Farmers down there are all busy seeding.

A real jolly bunch of Mirrorites got together on Saturday evening and gave a party for Mr. and Mrs. James Fraser.

A. J. Jewell delivered drilla to Carl Allen, Philip Curr and Grover Allen.

Hugh Steele has gone to Heisler, Alta., to work on a farm.

Miss Winnie Oldring's Sunday School class enjoyed a hike to Lamberton creek, Sunday.

W. Sterling purchased a new Hudson.

Mr. and Mrs. Gorrell are visiting from Bashaw.

Mr. Watters purchased a new Chevrolet.

Andrew Common made his regular visit to Big Valley this week.

A. McCormack purchased a new Essex sedan.

E. E. Estelle motored down to Calgary on Monday.

The Buffalo Lake Co-operative Association shipped out a car of cattle from Mirror on Saturday, and two from Bashaw.

N. G. Spices was a business visitor to Edmonton, this week returning with his new Buick sedan.

The interior of the round house has been whitewashed. Rev. R. G. Wood preached in Killam, Sunday last.

The infant child of Mr. and Mrs. J. Norman passed away on Sunday. The funeral was held on Tuesday afternoon.

J. W. Trotter is enlarging his store this week.

Hugh McNair purchased an Essex coach this week.

Mr. and Mrs. Purcell and family with Mr. and Mrs. J. P. Watters and family, motored to Edmonton.

Where Canada Leads the World

Canada exports more wheat than any other country in the world. It produces most of the world's supply of nickel. Within the last two years it has passed the United States in the production of newsprint and is now the greater exporter in the world. Isolated facts, such as these, are becoming common knowledge amongst Canadians, but it is wonderful to us that they, 200,000 square miles of a great country, are now in a position to gain the position of first importance among the trading nations of the world.

The nibble year of Confederation is a good time to take stock of our national achievements, not that we should become boastful as a people, but as an encouragement and an incentive to still greater things. It has been charged that Canadians suffer from inferiority complex. That we are more than a little inferior to the United States is true, but that is no reason to despair; as a consequence, we are apt to entertain doubts and be fearful of the future instead of displaying confidence and courage.

It is a good thing, therefore, to sometimes get a glipse of ourselves as others see us. There is inspiration in such releases as the following:

The National Foreign Trade Council of New York, in a recent statement, says: "Canada has had the largest percentage external trade since 1912, with an increase of 85 per cent, as compared with Australia's 15 per cent, and 21 per cent for the United States."

The League of Nations Bureau recently issued a report showing that Canada's per capita wealth had grown from \$1,000 in 1901 to \$2,200 in 1929, a record unbroken by any other nation in history.

The National Bureau of Research of the United States recently published the results of 12 years' testing showing that Canada had enjoyed more prosperity than any other nation.

In the years covered by these statements, the Western Provinces

can have been transformed from being a vast area with a sparse population to a modern industrial center with two million people and with an agricultural position of such magnitude as to command the attention of the whole world, and constituting a factor to be reckoned with in all the world markets.

The development of the West has had its effect on the rest of Canada, as well recognized but Western people seem not to fully appreciate the rapid growth and development that has taken place in the other provinces to the east. Manufacturing production in Canada has grown from \$14 million of dollars in 1901 to \$1,511 million in 1925 and in export of manufactured products expanded in the same time by 2,727 per cent. Today Canada exports a complete reversal of the situation as recently as five years ago.

Canadian manufacturers are beginning to profit from the lessons of the past. They realize that the people of Canada as a whole will not stand for protective tariffs so high that they are prohibitive, and that the tendency is in the direction of lower rather than higher tariff. They now know their place in the world and are seeking a more rational tariff, one that will not rock the boat. As small they have created in Canada an entire upper world in which an entire upper world was grafted in the hole in the cheek of the patient, thus insuring skin of the same pigment and quality as that of the rest of the body. For several months the patient has been lying on his back, holding the operation. In September it is impossible for the patient to close his eyes but gradually the eyelid stretches and droops, resulting finally in the formation of a new eyelid.

More Hungarians Will Emigrate to Canada

New Settlers Are All Acquainted Farm Work

From March of this year until October the number of Hungarian immigrants to be settled in Western Canada by the Canadian Hungarian Colonization Board will number about 2,500, according to Dr. J. Uvarov, Hungarian president of the Board.

Hungary, like Canada, is an agricultural country, Dr. Uvarov explained, and the Hungarian immigrants are known to have all accustomed to farm work. "The farmers here, report to the Board the number of laborers they require and the order for that number goes to the immigrants," said Dr. Uvarov. "The way he explained, most of the Hungarians who came to this country were very poor and could not think of buying land at first. They were therefore placed on the land and given a sum of money to start out for themselves. Occasionally, the doctor said a man came with some capital and wanted to start for himself.

Wheezy Chest Colds Subdued Over Night

Trained Nurse Tells How Colds Are Quickly Broken Up

NERVILINE A Home Necessity

Speaking of home remedy keep that you and another should always keep on hand, Nurse Carrington says: "I haven't had any preparation more effective than this. It is the ideal liniment, every drug store has it. It absorbed quickly, ease and removes all forms of rheumatic chest colds, pain in the side, stiff neck, earache and toothaches. I have found it to be the best remedy for the many ills that aches in every home, nothing is more efficient than Nerviline."

For nearly fifty years Nerviline has been a household remedy in thousands of Canadian homes. Get a 25c bottle today.

Latest Development

In Plastic Surgery

Entire Upper Eyelid Grafted on Check of Patient

Use of eyelids to repair facial defects is one of the late developments in the field of surgery. Dr. George Sheehan of the New York Post-Graduate Hospital, speaking before the convention of the American Association of Plastic and Reconstructive Surgeons, said:

"As small they have created in Canada an entire upper world in which an entire upper world was grafted in the hole in the cheek of the patient, thus insuring skin of the same pigment and quality as that of the rest of the body. For several months the patient has been lying on his back, holding the operation. In September it is impossible for the patient to close his eyes but gradually the eyelid stretches and droops, resulting finally in the formation of a new eyelid."

MOTHERS PRAISE BABY'S OWN TABLETS

Will Design Memorial

Queen Alexandra Monument is to be Work of British Sculptor

The memorial to Queen Alexandra, designed by Alfred Gilbert, British sculptor, will typify faith, hope and charity.

Queen Alexandra, who died on September 25, 1925, Queen of Great Britain, will occupy a position close to that of Marlborough House, from whence more than 20 years Queen Alexandra conducted a gracious leadership.

It is understood that the same sculptor who did the official biography of the late Queen Mother has not been favourably entertained, although it can hardly be denied that her late Majesty received only cordial greeting in the authorized biographical works of the late King Edward.

Flower Convention
Arrangements are already under way for the big flower convention to be held in Winnipeg next year. Preliminary estimates of the attendance places it at 25,000.

If a man had as many wives as Solomon he would wonder if some other one wouldn't have snatched her better.

There's nothing here a horse more than to have another horse talk so much about himself that the first horse hasn't a chance to talk about himself.

As a veritable an effective preventive is Mother Graves' Worm Salve. It is a salve that will give the most delicate child without fear of injury to the constitution.

As soon as he would wonder if some other one wouldn't have snatched her better.

Rural Land Values and Rural Credit

By C. W. Peterson

Canada is the only important agricultural country in the world without a national rural land bank and machinery. This situation has a distinct bearing on the colonization of our vacant lands. Across the line the Federal Land Banks supply rural agricultural funds on terms of 6 per cent interest on loans for 25 years. This system is in an extremely healthy condition there and it is difficult to see how Canada can add to it. United States farmers to this day are not in a position to offer them similar economic facilities for long term credit.

A commission recently made some inquiries into the system of rural land credit machinery and the final report stated that "the whole plan is for a method which would not encourage speculation in land, but one which would make farming more attractive to those who were eager to go into the land."

The commission of the long-term land moratorium system with amortization pavilions, has been a most valuable factor in the closer settlement of the West. It has resulted in both more sugar and mortgage, and, by its tendency to stabilize land values, has diminished land speculation. The stabilization of land values is one of the most important factors in the rural land credit system. Incidentally, it is one of the caving needs of our western country where the crazy fluctuations of land values has done more to demoralize agriculture than all other causes combined.

One Man Will Control Ship

Modern Equipment to Operate Large Gas Diesel-Electric Vessel

Without using a ship's telegraph, without having a ship's radio, without a compass, one man will be in complete control of the world's largest Diesel-electric ship which is to be built on the Clyde at the yards of the British Thomson-Houston Co., Ltd., of Rugby. Full control of the ship is invested in two pieces of equipment which will be built by the British Thomson-Houston Co., Ltd., of Rugby. Full control of the ship is invested in two pieces of equipment which will be built by the British Thomson-Houston Co., Ltd., of Rugby. The ship will be 12,500 tons, for the biggest Diesel-electric ship ever made. The engines, instead of driving the propeller directly, will be driven by a large electric motor, so through a remarkable electric motor, the ship will be built by the British Thomson-Houston Co., Ltd., of Rugby. H. A. McKenzie, Howard Conway, L. Swiner and the Misses Koenig motored to Big Valley Wednesday.

Mr Penberton, local representative of the Aix-Mirror Colonization Board reports the following recent placements: Harmon Syms wife and child, to Hall Brewster's farm. Arie Schader and wife to Alton Jewell's farm. A Devlugt, wife and two children.

A scene from "The Covered Wagon" was re-enacted in front of The Journal office yesterday. The supply wagon took up the lead with the covered wagon coming next and the riders herding the cattle in the rear. They were travelling apparently unobserved from Indian attacks.

A new variety of wheat has been developed at Frank Laramée's farm at Aix. Its vitality is its drought resistance strength. This new variety of grain has been registered at Ottawa as "Vernon." In 1919 Mr. Laramée discovered in his wheat crop a few ears which were obviously diseased and that showed drought resistance quality. He kept the kernels, sowed them in 1920, and gradually built up 1,000 bushels. The wheat is also reported to be heavy yielding.

The following wire was received recently by C. E. Usher, general passenger traffic manager, C.P.R., from J. C. Phillips, president of the Alberta Fish and Game Protective Association:

"On behalf of the Massachusetts Fish and Game Protective Association I want to extend our appreciation for the fine display at the Stampede Show and the efficient way it has been handled by your representatives."

(Signed),
J. C. Phillips, President

Miss Jean Innis of Alliance was the guest of her sister, Mrs. A. C. McNair over the week end.

Mr. F. ... points that his what is up.

Dr. A. M. Watson will be at the Mirror Hotel for on day on May 22nd.

H. Moller is back at McNair's store after having the measles.

Mr and Mrs Baugh spent the week end at Edmonton with friends.

Mrs Hasgood of Bashaw was an afternoon guest at the home of Mr and Mrs Purcell home on Thursday.

Mr. and Mrs. Watters, Mrs Purcell and Mrs Jay motored to Stettler on Friday.

Mr McClelland spent the week end with his family at the capital.

Mr and Mrs Purcell motored to Red Deer on Sunday.

Mr and Mrs J. P. Watters and family motored to Red Deer last Sunday. Mrs Watters trying her preenice hand at the wheel. They report a very good time.

GIVE US A TRIAL

A farewell banquet will be given Mr. W. A. Brown, former General Supt. of the Alberta district, in Edmonton May 10th. As Mr. Brown was General Supt. in Edmonton for a great number of years, and highly respected by everyone, it is expected that a very large crowd will attend this banquet, from all parts of the western region.

UNITED CHURCH SERVICES

Minister, Rev. R. G. Wood B.A.
May 13 - Aix 11 a.m., Mirror 7:30 p.m.
May 20 - Aix 11 a.m., Ripley 3 p.m., Mirror 7:30 p.m.
May 27 - Aix 11 a.m., Mirror 7:30 p.m.

Mrs. Haggerty arrived in Mirror, Saturday, where she has joined her husband at the Imperial Hotel.

Frank Gordon and Tom Parsons of Big Valley, are painting the Crown Lumber Co. building.

Robt. Halbert cut his toe severely, whilst brushing north of town.

Mother's Day will be observed in the United Church at 11 a.m. this Sunday in the United church. Elected officers and teachers will be installed at the evening service at 7:30 p.m.

The Wide Awake and Rainbow C.G.L.T. groups went on a hike last Saturday. Leaving United church, with lunches, went out to Lamberton creek, where they made fire and had roasted bacon. Some stories were enjoyed and everyone had a good time after which they returned to town with Mr. Spice, in the car.

Two desperadoes and a woman—on the high seas—and then comes love. Thrills and thrills from start to finish. See this at the Grand theatre Saturday, May 12th.

The South-bound speed train was derailed Sunday afternoon between Huxley and Trochu when eight empty oil tanks and two other loads left the track.

The Royal Bank is open for business Tuesdays and Fridays.

Rev. Smith, Supt. for the northern division of the British and Foreign Bible Society, substituted at the Union Church Sunday, in the absence of Rev. Wood. He gave a very interesting talk on the work of the Bible Society.

Any farmers wishing to secure British help, either married or single men or single men may obtain information through Wm. J. the Grand Orange Lodge Immigration Dept.

The Mirror Hotel is receiving a thorough cleaning from top to bottom and a coat of kalsomine is being applied also. Mr. Frank Gordon of Big Valley is doing the work.

For Sale 4 good work horses. Apply J. F. Flewwelling. It.

Stray—4 head of work horses, 2 dark bays and 2 light bays. Fred Dowsell, 6 miles north of Mirror.

For Sale—Or exchange for house in town—23 acres, four miles from Puntledge. 5-room house, barn for 12 head, hen house and garage. Also a 100 acre farm. For further particulars apply to J. Keeton Mirror.

GRAND THEATRE

SATURDAY, MAY 12th

John Gilbert in Twelve Miles Out

RUM RUNNERS—hi jackers—angry spurts of flame as pistols speak in the dark. A film that will make you grip the arms of your chair!

John Gilbert is a fighting, love-making, devil-may-care outlaw of the high seas.

His most satisfying, and romantic production.
